## SUMMARY

Experienced proficiency in Python and Java, and adept at problem-solving. Passion for quality in Python and Java to develop innovative solutions. Self-driven and eager to learn, with a passion for continuous learning. Ability to balance attention to detail with big-picture thinking. Excited about working in a fast-paced, dream-big, collaborative, and open environment on challenging projects and driving impactful results.

## EDUCATION

### VIT-AP University

VIT-AP University  
BTECH, COMPUTER SCIENCE (october-2022)  
(8.4 CGPA)

### Narayana Junior College(Nellore)

INTERMEDIATE, MPC · (August 2020 - April 2022)  
(9.5 CGPA)

## SKILLS

- Python
- Java
- MySQL
- Generative AI
- Excel
- Data Visualization (Panda,Numpy  
Matplotlib, Seaborn)

## CERTIFICATIONS

- Python(Basic)
- Java(Basic)
- Introduction to Generative AI
- Introduction to Data Science
- AI&MLIntern at InternPe

## EXPERIENCE

### InternPe

Intern  
February 2024 - March 2024 (2 months)  
During this internship, I learned many things, such as how to use NumPy and Pandas and how they are useful for building ML models, etc. It was almost a span of one month. I completed mini projects like Breast Cancer Prediction, Car Price Prediction, and IPL Winning Prediction. During this internship, I gained hands-on experience in Python programming.

### Google Student Developer Club

Oct 2023 - Present

- Actively collaborated on various projects, attended workshops, and enhanced skills in different technologies.
- Engaged in community events to promote learning and innovation.
- Developed practical experience in software development and teamwork.

## LANGUAGES

- English (Professional Working)
- Telugu (Professional Working)
